

RESIDENTIAL SUBSTANCE ABUSE TREATMENT PROGRAM

Component: 50.30.555, 40.30.555

PROGRAM OVERVIEW

Created by the Federal Violent Crime Control and Law Enforcement Act of 1994, the Residential Substance Abuse Treatment (RSAT) program is designed to develop and implement residential substance abuse treatment programs in state and local correctional and detention facilities. In addition, the RSAT program was developed to create and maintain community-based aftercare services for offenders on probation or parole.

The California RSAT program has been in existence and administered by Cal EMA, formerly the Office of Emergency Services, since 1997, but exceeded the standard three year commitment. In the Fiscal Year (FY) 2009, Cal EMA issued a Request for Proposal solicitation that resulted in five new awards. Four of the 2009 RSAT recipients were previous Cal EMA funded agencies, and the fifth went to the Los Angeles County Sheriff's Department.
